Sports Premium Spend  
and IMPACT 2015/6 and  
planned spend and  
impact for 2016/7**

**April 2017**

## **What is the School Sports Premium?**

It is a sum of money given to the school each year to ensure the delivery of high quality Physical Education, sometimes delivered by a specialist teacher or coach or a primary teacher who has had extra training funded by the Sports Premium. It can also be used to provide greater access to physical education for pupils, especially the least active, through the provision of clubs during extended provision or in holidays.

At Marish Academy Trust, we have always had a wide ranging PE Curriculum, a dedicated PE department and a varied programme of competitions and extra curricula activities running before and after school. But there is always room for improvement and the Trust schools use the money to enhance provision further in a variety of ways, some of which are mentioned above and below.

### **How much is it?**

The level of the premium for 2015-6 was £10,635 for Marish and £9,680 for Willow. It is calculated according to the number of pupils on roll at each school.

### **What did Marish Academy Trust spend the premium on in 2015/6?**

The DFE guidance states Sports Premium should be used to:

- Develop or add to the PE and sport activities that the Trust already offers.
- Make improvements now that will benefit future pupils

So, for example during 2015-6 we used our funding to

- Hire an additional qualified sports coach to work across the trust as the numbers on roll have grown from approximately 1200 in 2015 to 1200+ in 2017.
- We have also established an apprenticeship scheme with a local college, wherein a young person under 25 is hired as a trainee sports coach, whilst attending college on a part time basis
- Provide all class teachers with a specialist coach to work alongside them to improve the quality of PE lessons.
- Buy new resources to help teachers teach PE more effectively
- Provide specific training and supported sessions for the teachers of the resource base children or others with complex physical needs.
- Introduce new sports such as New Age Kurling and encourage more pupils to take up sport, especially those with disabilities and SEN.
- Provide targeted opportunities designed to involve the least active children or disadvantaged children in sports clubs before or after school and in the holidays.
- Continue our subscription to Slough Schools Sports Partnership to enable our pupils to access an ever increasing variety of competitions. Providing extra curriculum fixtures after school, which includes sports such as Boccia, Badminton, Table Tennis, Football, Cricket and Tag Rugby.

- Ensure that some disadvantaged children had subsidised places to attend our trip to PGL.
- Enable several children with complex SEND to attend regular swimming lessons with their chronological year groups by providing transport and an additional swimming coach for this group with sports premium funding.

### The impact of the Funding in 2015-6

We did a great deal with just over £20,000, I am sure you will agree. This is because we have always valued and prioritised the impact a love of Sport, PE and exercise can have on well-being and life outcomes for all our families.

But the impact of this particular year's Sports Premium spend is listed below:

1. 18 class teachers supported through a series of lessons by a trained specialist, moving from observing their practice to taking the lesson and being observed themselves. Impact 18 more teachers, delivering quality PE lessons and 100% of our children having access to two quality PE lessons each week. This is in addition to the 20 teachers trained last year and the lessons we teach for EYFS and Resource base classes.
2. More resources bought to equip Willow particularly as a growing school and for the Resource Base children at Marish and children Trust wide with SEND, along with extra equipment for house competitions during lunchtimes. Impact is there is now equality of opportunity across the two trust schools and our pupils with SEND are able to access quality PE that is specially adapted for them. This has included several of them being able to attend swimming lessons for the first time from September 2015. Their teachers are confident in delivery too.
3. New resources and training purchased for new sports such as New Age Kurling, Tag Rugby and Lacrosse. Impact: We won three Slough borough competitions, Tag Rugby event in Spring 2016, Orienteering and New Age Kurling in Summer 2016. The New Age Kurling team furthered their achievement in the borough games by being crowned county champions at the Berkshire School Games in Summer 2016. Children have also experienced two sports in which they have never had access to before (New Age Kurling and Lacrosse).
4. We provided six weeks of holiday clubs including some with a specific PE focus last year and offered free places to our most vulnerable children. Impact was between 30 and 50 children attended these each day they were on offer. Additionally, we laid on approximately 20 clubs each term as part of the Children's University offer which were sports related. Impact is shown through the attendance data in Appendix 1 and it should be noted that these clubs are free to vulnerable families. In summer 2016 we offered sports specific holiday camps for the first time and free places were offered to disadvantaged children on roll at either Marish or Willow Schools.
5. We paid our subscription to the Local Slough Schools Sport Partnership using the premium, (which is how it still survives when many such organisations no longer exist). Our membership had the direct impact that Trust children took part in over 100 sporting competitions last year and as a result both schools achieved the School Games Kite Mark at Gold level in Spring 2016 for the second year running. Only 3 schools in Slough achieved Gold and we are on target to achieve this for the second year running. (See PDF Applications for School Games Kite Marks 2016 on website.)

### **How will the money be used at Marish and Willow in 2016-7?**

In 2016/7 Marish has been allocated £10,850 School Sports Premium funding and Willow £9,820. This is paid in two instalments in the autumn and summer terms and is being used to support the initiatives listed at 1-5 above as it has had a considerable impact on enhancing provision and take up of sporting extended provision opportunities particularly. (See Appendix 3 which provides an analysis of questionnaire responses from the children across the Trust about PE and Sport)

In addition, we are using some of the money in the current academic year to develop our community partnership and parental engagement in a variety of ways. Some examples are listed below:

- We aim to support families in engaging in physical activities together using the Create Development Family Funs programme in an after school club context.
- The Sports department have formed a grass roots football club, Marish Wizards Football Club. This has been place in place from November 2016 and provides an opportunity for children primarily from Marish and Willow to participate in a community football club. The club is also open to the local area which is subsidised to support all children involved.
- Marish Academy has a link with Reading FC where once a month we can take up to 52 children from Marish and Willow to take part in a football tournament followed by a stadium tour and finished off by having lunch in the player's lounge. We aim to give every child the opportunity to attend this and take children from different phases in rotation. Moreover, we have invited other schools to join in with this opportunity and even pick them up if they have no transport and have formed really good partnerships that have now extended outside of the borough and breaching out to other counties.

Finally, we have restructured and enlarged our PE department to include extra staff and to develop the Strategic leadership of PE to further impact on outcomes by in involving them in pupil voice, personal development and parental engagement work. The team now includes two executive leads for Sport and Community, a head of PE and curriculum development, two main scale coaches and a trainee coach through the aforementioned apprentice scheme.

**Appendix 2: Analysis of Pupil Questionnaire responses regarding PE and Sport March 2017**

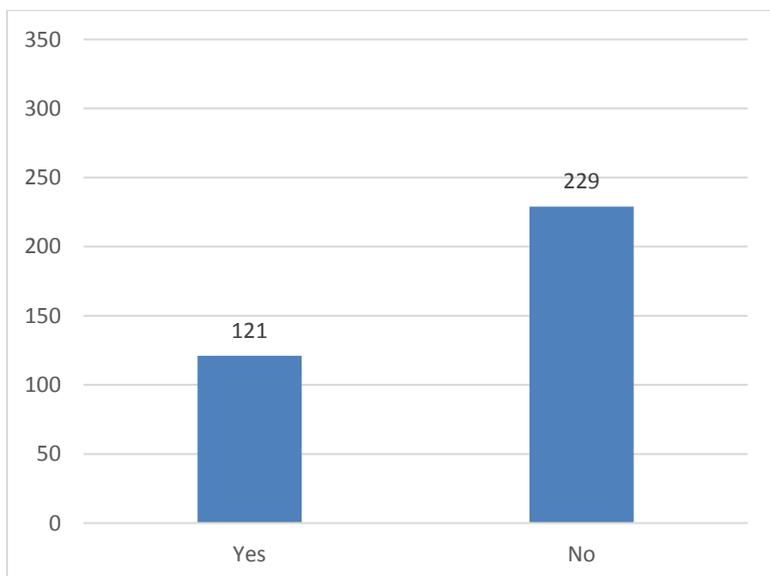

**Do you enjoy PE at school?**

**Impact:** More children participating and bringing their PE kit. More active children, healthier children.

98.3% enjoy PE

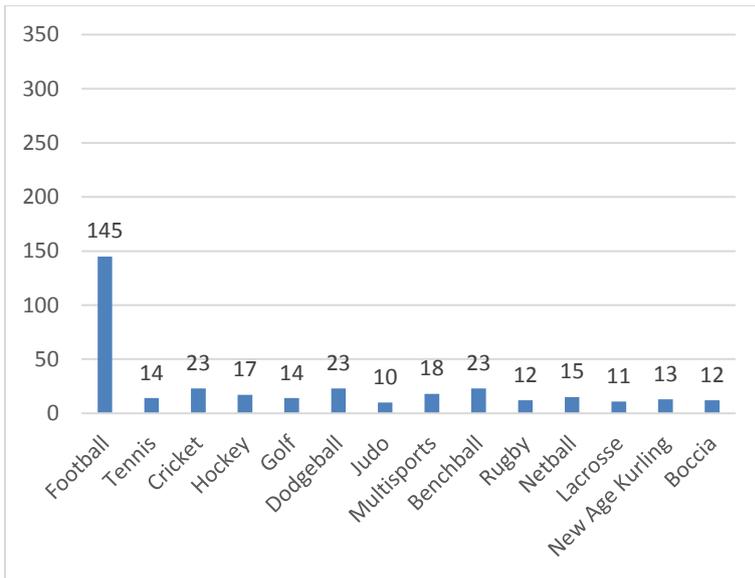

**Do you play sport for a team outside of school?**

**Impact:** More opportunities for their social engagement. Parents have opportunity to engage in watching or taking part in school as a family.

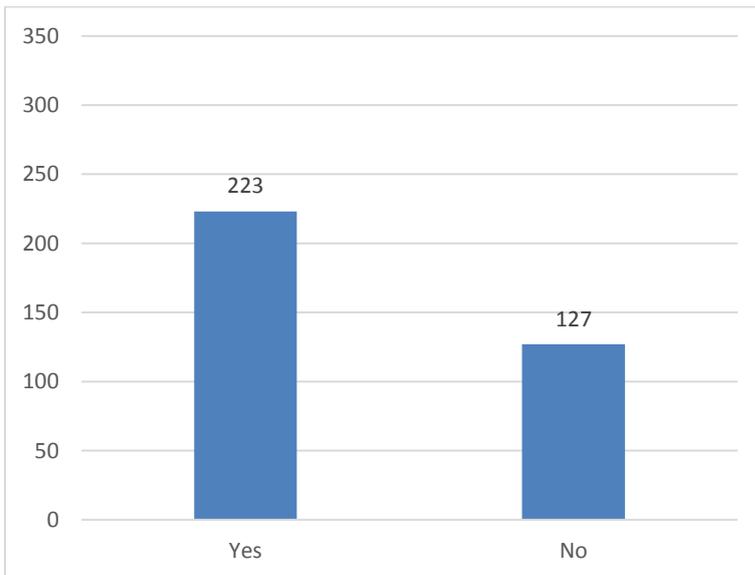

34.7% play sport outside of school

### What is your favourite game/sport to play

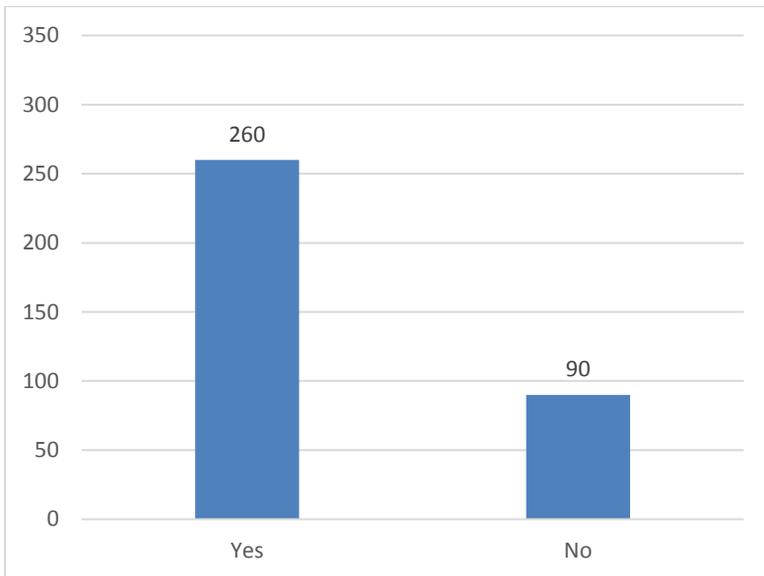

**Impact:** This information enables us to cater for children's preferences in lessons and extra-curricular clubs.

### Have you been to an after school sports club?

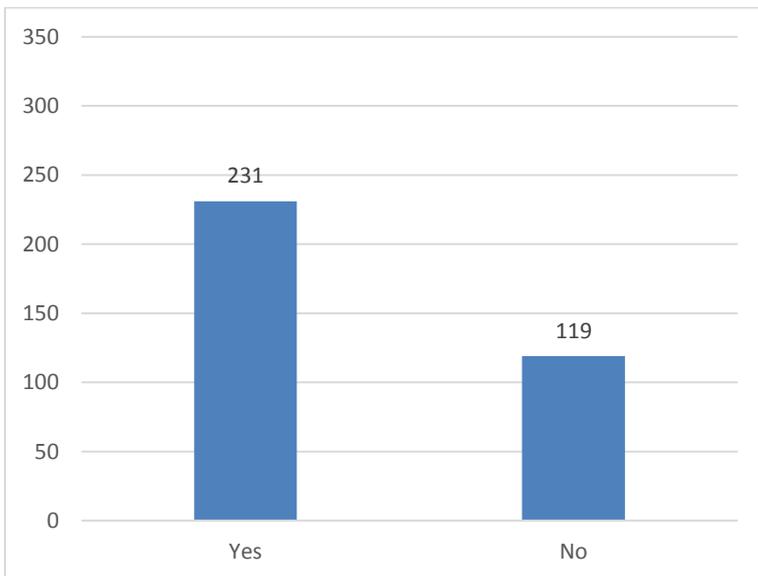

**Impact:** Children are safe, active and cared for whilst parents work. 63.7% attend after school sports clubs. This also helps promote a lifelong positive attitude to physical activity.

**Did the school help you to get involved with your club?**

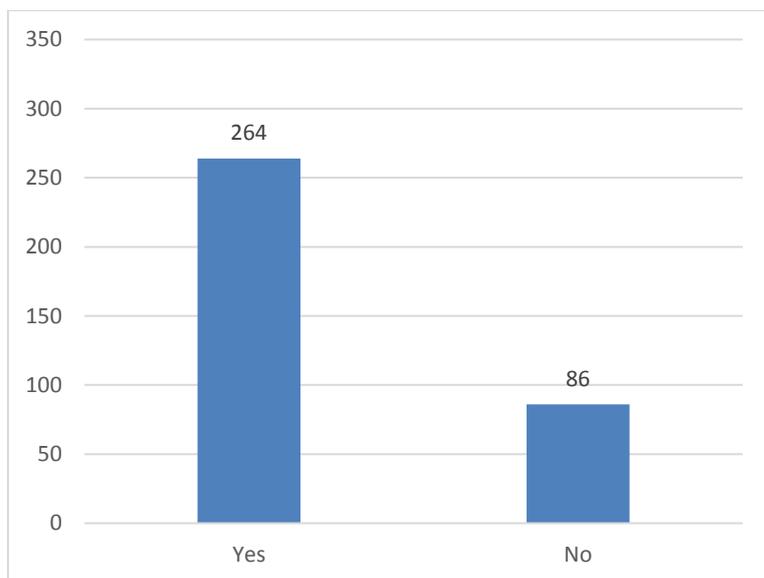

**Impact:** 74.2% have been encouraged by the school staff to engage in a club in or outside of school

**Have you learnt to swim since being at Marish Primary School?**

**Impact:** 66% have learnt to swim as a consequence of having swimming lessons in KS2 in school.

**Would you like a sports specific holiday club?**

**Impact:** Results show that 75.4% would like a sports specific holiday club. So we are starting one in summer 2017.
