Step 6:

Twitter will provide you with some accounts you can follow based on your interests. Select a few you like.

Step 7:

You are ready to go!

Simply click on the blue button on the top right to tweet.

Your First Tweet

Tweets are a maximum of 280 characters. There's loads you can say with 280 characters! Remember its a conversation platform rather than long statements.

Try it and see what comes back.

If you really want to say more, Twitter makes that easy. Once you have tweeted click the + button on the bottom right. This will string together a series of tweets where you can make a longer point. This is known as a "thread."

You can add still-images, videos or a gif to your tweets.

Hashtags are really interesting. Try them out and experience how short tweets can become huge with the use of hashtags.

Privacy

Its important that you are aware that everything on Twitter is PUBLIC BY DEFAULT!!

If you want to make your account which allows you to communicate and interact privately set your account to private.

When you switch to a private account, you have to manually grant permission to allow your friends to follow you.
