

What is the School Sports Premium?

Every year, a sum of money is given to the school to ensure the delivery of high-quality Physical Education. This could be delivered by a specialist teacher or coach or a primary teacher who has had extra training funded by the Sports Premium. It can also be used to provide greater access to physical education, especially the least active, through the provision of clubs before school, after school or during school holidays. We must use the funding to make additional and sustainable improvements to the quality of Physical Education, School Sport and Physical Activity (PESSPA). Therefore, we use our funding to:

Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

- Develop or add to the PESSPA activities that our school already offer

At Marish Academy Trust, we have always had a wide-ranging PE Curriculum, a dedicated PE department and a varied programme of competitions and extracurricular activities running before and after school. But there is always room for improvement and the Trust schools use the money to enhance provision further in a variety of ways, including a focus on developing and sustaining the high quality of provision through enhancing our:
