

Special Project

Year 5

After half term, we will be starting a new Geography Topic looking at the landscape and environment of the Antarctic compared to Brazil.

We want you to find out about this topic at home and complete the task below, to showcase what you have learnt. This can be done by creating a booklet, poster, model, display, Power Point or video.

You will need to bring in your completed project by 10th January 2024. **The best projects will be featured on the school website and newsletter!**

Your task:

Research and produce a project that you can present to your class based on the Antarctic **or** Brazil (including the Amazon rainforest).

Some questions you might research:

- What physical geographical features would you find there?
- What is the climate like?
- Who lives there?

Other topics you might wish to research

- South Pole - mountain ranges - time zones
- Tribes of the Amazon rainforest - Rio De Janeiro

Remember, the project needs to be informative, eye-catching and attractive!
