

Special Project

Year 4

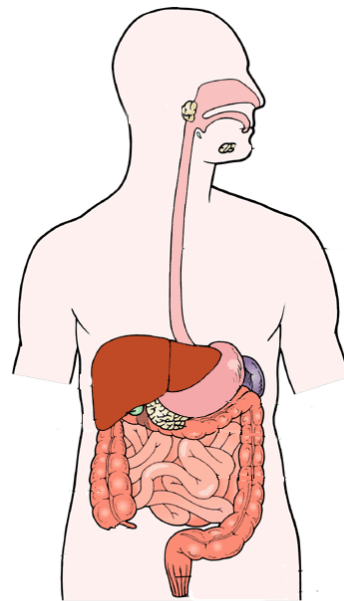

In the Summer term, the Year 4 children will be learning about:

Animals including humans

We will specifically be focussing on the digestive system within this topic.

During the spring holidays, we want you to find out about this topic at home and complete a special project to showcase what you have learnt. You can show what you have learnt by creating a booklet, poster, model, display, PowerPoint or video.

Next term, you will need to bring in your completed project, which will be displayed in the school. **The best projects will also feature on the school newsletter!**

Remember to present your project in a way that will be eye-catching and attractive!

Your special project is due in by Monday 22nd April 2024
