

# Special Project

## Year 2

## Science homework challenge: Favourite animals

Our next unit for science is learning about animals including humans, to help prepare for this topic we would like you to research and create a poster about our favourite animals.

In your projects please identify:

The group your animal belongs to (mammals, reptiles, fish, birds, amphibians).

Habitat - where the animal lives.

Diet - what the diet likes to eat and if it's an omnivore, carnivore or herbivore.

What does the animal do to survive?

Projects are due back Friday 7<sup>th</sup> June 2024

Remember to present your project in a way that will be eye-catching and attractive! There will be a prize for the best piece of work!
