

# Year 3 Special Project

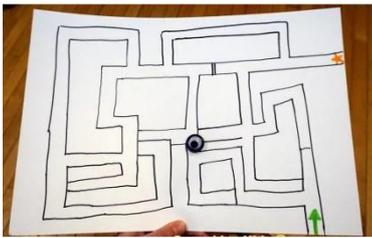

## Magnets and Forces

During the half term holidays, we would like you to choose at least one project.

This will be due on Monday 10<sup>th</sup> June 2024.

Choose one of these great ideas for your Summer 2 Project!

😊 Can you think of games (not tug-of-war) that use the forces of pushing and pulling? Draw and label them explaining briefly how they work using the forces.

😊 Make up a game for 8-year olds using forces (push, pull & twist). Provide written instructions for playing.

😊 Create a poster showing what forces you can see in your everyday life e.g. swings, door handles (push and pull), chair, tables standing still (gravity). Draw pictures/illustrations, captions and information. Use diagrams and written text to explain each force.

😊 Describe how a magnet works. Use scientific vocabulary associated. Illustrate with labelled diagrams.

😊 - Write a poem about either different types of forces or magnets. Use poetic devices such as: alliteration, onomatopoeia, repetition, rhyme, rhythm etc. You can either write a nonsense poem, riddle etc.

Remember, if you bring a project in, you earn at least 5 dojo points!  
We look forward to seeing your projects!
