

Light!

In September, year 3 will be continuing our topic: Light

During the half term, we want you to
find out about this topic at home.

**Choose one of these great ideas for your
special Project and bring it in by the 11th**

October 2024.

Draw a shadow picture. Use a torch or the sunlight to cast the shadow and then draw around it. Colour and label it.

Make a list of all the different light sources you have in your house and where they are. For example:
Lounge - ceiling light
TV
lamp

Make a shadow puppet

We look forward to seeing the observations that you have made about light. There are dojo points to be earned and knowledge to be gained so try your best!
