

# Year 5 - Special Project

In the Autumn Term, Year 5 will be starting a new Geography topic: **Natural Disasters**.

During the Summer holidays, we want you to find out about this topic at home and complete the task below to showcase what you have learnt. You can show what you have learnt by creating a booklet, poster, model, display, PowerPoint or video.

In September, you will need to bring in your completed project, which will be displayed in the school. **Projects are due on September 8th 2025 and the best projects will be featured on the school website!**

## Your Task:

Research and produce a project that you can present to your class based on a natural disaster. You need to show the effect this has on people, communities and on the Earth itself. How can something so natural cause so much pain, damage and destruction but also produce some of the most fantastic and mesmerising sights ever seen?

### Natural Disasters include:

- |                             |                |
|-----------------------------|----------------|
| - Floods                    | - Earthquakes  |
| - Hurricanes                | - Tsunamis     |
| - Avalanches and Landslides | - Volcanoes    |
| - Sinkholes                 | - Heat Waves   |
| - Droughts                  | - Forest Fires |
